Mr. Smith feels this site is well suited for manufacturing. The Loading Dock Is under an extended roof. Materials come in thru this loading zone, and the Finished product goes out thru the roller ramp.

This location does not serve retail customers.

The closest residential area is Ryan's Run apartments. There are several Single family homes located on the border of neighboring Cherry Hill.

The Applicant had a Sound Study performed on August 10, 2020. Evidence Was submitted that none of the Stations tested were above the 60 DB Threshold.

In support of the Variance Relief, Mr. Smith feels the Positive criteria of Keeping this business in Maple Shade outweighs any negative criteria. Management has been vigilant about cleanliness of site and has made Minor improvements.

They maintain no product is stored outside and are willing to improve The dumpster area.

Chairman Gee opened up the discussion to Board Member questions. Chairman Gee asked why the company has not come to the Board since Their operation started there in 2017.

The response being, there was an unsubstantiated claim of noise. When the former Zoning Officer visited the site, he said the business was Located in an area under 10 acres for this zone.

The Second Component of the Application: Use Variance was presented by Mr. James Miller, Professional Planner

142 of the 219 BJ’S Wholesale locations offer Gas Filling Facilities. Gasoline Services are a convenience to Club members as a one stop shopping trip. 35-55% of the Club Members.

2. Mr. Miller feels the Filling Station will enhance the “Deadspace” in the parking lot.

There is ample capacity to allow this new component. There are currently 539 Parking Spaces. On the busiest day only 293 were used. The new Filling Station would reduce the number of parking spaces to 413.

3. This property is an ideal location in the Business District Zone for a filling station to adjoin the existing highway network.

Mr. Miller feels there is no Negative Criteria.

The relief granted will not impact the Zone and will have less impact than a Service Station.

Mr. Mateo would also like to state that this is for cars only, and it will not Become a Truck Stop.

Chairman Gee asked “How would you stipulate No Tractor Trailers”? He feels this would have a negative impact on the traffic flow.
